## **Outdoor Acrylic Borderless Swimming Pool**

Chuanyue® warmly welcome you to wholesale Outdoor Acrylic Borderless Swimming Pool from our factory. The acrylic infinity net red swimming pool is a very visually impactful swimming pool. Its design uses acrylic sheet and infinity design, making the swimming pool look very transparent and floating in the air, giving people a sense of suspension. At the same time, the design of the infinity pool can also perfectly integrate the surrounding scenery with the water surface, making people feel as if they are in the water.

The design and production of an acrylic infinity swimming pool requires professional technology and experience. Generally, advanced CAD design software and CNC numerical control processing equipment are required to ensure the size, shape and transparency of the swimming pool. During the production process, processes such as high-temperature processing and fine grinding are required to ensure the stability and transparency of the acrylic sheet.
